

**In Response to Objections, Parties Involved in Ory Case
Request Court to Revise Settlement**

After receiving the objections to the settlement of the Ory case filed by HFA and numerous publishers, the parties involved in the case have asked the Court to delay implementation of the settlement so they can negotiate an amendment to the existing agreement to address the objections. The Court has agreed to allow the parties additional time to complete these discussions. A new notice is expected to be sent to Class Members to advise them of the new settlement plan after the Court reviews it.

The September 19, 2005 hearing regarding approval of the amended proposed class settlement has been adjourned. HFA will post the new date when it is set by the Court.
